## CENTURY PLUS II<sup>®</sup> and SINTAKOTE<sup>®</sup>/ Quality Pipeline Installation Training

Supplier of quality pipeline systems to  
the Water, Sewerage and Irrigation  
Industries.

*tyco*  
Water

# Training Session Outline

## Goal

To provide pipelayers with a sound basis of efficient and competent methods of installation and reinstatement of pipelines to relevant manufacturers and industry standards.

## Outcomes

Understanding of team concepts.  
Understanding the effectiveness of quality systems within the workplace.  
Knowledge of pipeline technologies and systems.  
Knowledge of the Handling and Installation Manual.  
Understanding of correct handling and installation of pipelines.

## Target Group

Personnel involved in the construction and pipeline industry. The program is designed for general pipelayers, leading hands, supervisors and engineering personnel.

## Topics

Group Dynamics.  
Problem Solving skills / Sharing of Knowledge.  
Knowledge of pipeline systems and procedures.

## Methods

In house workshop – Presentation and practical demonstrations.  
Team projects in problem solving.

## Resources & Timing

Time – One full day (8.00am - 4.00pm) of facilitated training (3 hrs for follow up assessment)

## Cost

Please note a minimum of 10 people are required for a full course to run.  
Cost includes all program handouts / manuals.

- 1 attendee AUD\$430.00
- 2 attendees (same organisation) AUD\$400.00 per person
- 3 or more attendees (as above) AUD\$380.00 per person
- Full course, please contact Tyco Water
- Re assessments (metro) AUD\$80.00 + GST per person
- Re assessments (non metro) contact Tyco Water for details
- Re issue of certificates and/or registration cards AUD\$60.00 (excluding GST)

Facilities : Video/TV, data projector, learner handbooks and Handling and Installation Manual.

## Assessment

Successful completion of theoretical exercise using the Handling and Installation Manual.

Successful demonstration of practical understanding and application for handling and laying pipe.

Evidence from learning activities.

RPL may be arranged if the applicant has a minimum of 5 years experience in the industry

## Training Overview

Tyco Water is a Registered Training Organisation (RTO). Tyco Water Training offers courses in pipeline installation which have been accredited by VETAB NSW\*\*

- Course in Ductile Iron Quality Pipeline Installation (CENTURY PLUS II® Program) - Identification No. 2839NSW
- Course in Quality Installation of SINTAKOTE® Steel Pipelines (SINTAKOTE® Pipelines Program) - Identification No. 12840NSW

Expected learning outcomes are:

- Discussion of trenching, bedding and backfilling.
- Pipes and fittings laid/joined in accordance with manufacturers requirements.
- General knowledge on pipes and fittings.

The courses were developed to provide the highest probability for pipelayers to correctly install pipelines used for water, sewerage and irrigation across Australia. Tyco Water delivers a generic practical program where participants are required to demonstrate competency in handling and laying of pipelines to accepted industry standards.

All workshops are conducted over a full day, and may be delivered at main venues operated by Tyco Water, or at remote locations for projects.

Successful completion of the training workshop and assessment task will result in the award of a qualification NWP07 - National Water Industry, Level II Unit of Competency NWP233A.

## Registration Form

- ☒ Form MUST be completed in full – incomplete forms will be returned.
- ☒ Register one person per form, per course.
- ☒ Make copies of this form and retain the original for future use.
- ☒ Please print or type details in black ink, suitable for faxing.
- ☒ Your enrolment will be confirmed in writing, detailing workshop venue, dates and times.
- ☒ Please advise if you require any special learning needs on a workshop.
