

Tyco Water on Show at Ozwater'11

The Australian water industry's premier event, Ozwater, was held last week in Adelaide. Over 1500 delegates and 100 exhibitors converged on the Adelaide Conference Centre to see the latest trends and innovations in Australia's \$90 billion water industry.

As a longstanding principal sponsorship of the event, Tyco Water was well represented with one of the most impressive stands of the exhibition, showcasing its complete range of solutions.

Many thanks must be extended to the great number of dedicated personnel who contributed to Tyco Water's success at the event, without whom such an integrated showing would not have been possible. Special thanks must go to the Tyco Water staff who attended and to our many valued customers that joined us on the stand.
