

SINTAJOINT® PUT TO THE TEST

Tyco Water is proud to announce the recent award of 160km of 813OD SINTAJOINT® steel pipes and fittings for a high pressure water supply project in the United Arab Emirates. We are also proud to advise that one of the SINTAJOINT® pipes involved in the contract has successfully passed a third party verified type test of 5.31 MPa (53 Bar) as well as a vacuum test of -80 kPa. These tests were conducted with the SINTAJOINT® at maximum angular deflection (2 degrees) and maximum radial deflection (2%).
